Golden Gate National Parks Conservancy
Building 201, Fort Mason
San Francisco, CA 94123

Dear Selection Committee,

We are writing to express our interest in partnering with the Golden Gate National Parks Conservancy and their Presidio Exchange proposal, now underway for the Commissary site on Crissy Field. We see a unique and powerful opportunity for our organization to tap in to the potential of this new world-class park site.

The UN Foundation builds public-private partnerships to address the world's most pressing problems, and broadens support for the United Nations through advocacy and public outreach. Through innovative campaigns and initiatives, the United Nations Foundation connects people, ideas, and resources to help the UN solve global problems. Our priorities and initiatives align well with the proposed themes and programs described in the Parks Conservancy's proposal.

The UN Foundation was created in 1998 by entrepreneur and philanthropist Ted Turner and now is supported by global corporations, foundations, governments, and individuals. The PX offers a strategic venue for UN Foundation events that can help grow our programs and attract our global partners.

Additionally, the PX concept presents an opportunity for the UN Foundation, the Parks Conservancy and the Presidio to support our strategic goals. Through this partnership we can explore new and exciting ways to engage the public around pressing issues in health, climate and youth. We can also partner with the Parks Conservancy through the PX to engage our global entrepreneurs and the PX community in our innovation initiatives with the UN.

In addition, currently, the Parks Conservancy reaches thousands of youth per year through its education outreach programs, and these park lands can help to inspire and reach kids of all backgrounds and ages to understand the fundamental values of UN programs like Nothing But Nets and Girl Up through the enjoyment of the special resources of this place.

UNITED NATIONS FOUNDATION

We submit our support with enthusiasm and admire the great work and concepts brought forward in the Conservancy's proposal. Thank you for your consideration.

Sincerely,

Elizabeth Gore
