Dear Directors,

I am writing to support the Golden Gate National Parks Conservancy's Presidio Exchange proposal for mid-Crissy Field. Of the three proposals, I think it is most in harmony with the site and with the other recreational and cultural uses of the Presidio. It would also enhance the movement of visitors from Crissy Field to the south and would not obstruct views.

The most important goal of the Presidio as a national park, in my view, is to enable visitors to enjoy being outdoors amid beautiful landscaped and views. An alternate proposal that would bring traffic, air pollution, noise and congestion to the Presidio for a purpose not related to this goal and would obstruct views would undermine rather than support the essence of the Presidio.

Thank you for considering my comments.

Sincerely yours,  
Julia W. Cheever
